**AMENDMENT AND RESPONSE** 

ommissioner for Patents Jashington, D.C. 20231

ear Sir:

This communication is in response to the Office Action of December 19, 2002.

<u>AMENDMENTS</u>

In the Claims

Please amend the claims as:follows:

1. (AMENDED) A process for cutting a glass sheet, comprising the steps of:

heat treating a glass sheet to be cut by first applying at least one laser beam onto a rface of the glass sheet and scanning the laser beam along a cutting line along which the glass eet is to be cut, so that a sheet portion including said cutting line may be heated to a imperature equal to, or above a glass transition point of the glass sheet, and then cooling the eet portion to thereby cause the sheet portion to protude from the remaining portion of the
